

Defining success criteria to measure progress

Example statements about the leadership culture in school

Our school:

- actively encourages collaboration and on-the-job learning
- has a culture of valuing achievements across the school, including leadership and teamwork
- adopts a strategic and progressive view of leadership development
- has and regularly uses tools for diagnosis and feedback on leadership qualities.

Or:

- use the school's own statement from the policy document.

Defining success to measure progress

If there were only two things you could do to improve the culture for growing leadership in your school, what would you do?
